In the case of a partial sale of a business, the Board determined that if that portion has had zero use, the sale should

be reviewed by the board and could be denied. If the area has had negligible use, it should be reviewed by the Board and the buyer could be notified that an operating area associated with a sale that is in non-use and that use must be established within the following three years or the area may be removed from their license.

Director Howard stated that he hopes to have these manuals finalized and approved for distribution at the February 2004 Board meeting. He noted that he had already begun using them in certain instances. There will be three manuals. They are:

- *Outfitter Amendments* – This deals with major amendments, minor amendments and one time controlled hunts outside of operating area.

The Board stated that the manuals were well put together and would be very beneficial to the industry. Board Member Farr had some comments that were incorporated into the manuals.

The Board discussed that replacement of a guide on an emergency only and not a routine basis should be the way the 15-day rule is to be interpreted.
